

# primesign UNIFIED TRUST

## LEGAL CERTAINTY & SIMPLE VERIFICATION

of signatures over generations.

### YOUR CHALLENGE

- You struggle with documents holding **inconsistent formats** and signed with **signatures of various types and legal value** (simple, advanced & qualified signatures).
- You must **verify and decide** whether a **contract is acceptable and legally reliable**.
- You are also responsible for the **long-term preservation of documents** so that they can be proven for decades.
- You have to deal with **distributed liability** and **many business relations with different contractual partners** (e.g., caused by documents from numerous sources & customers from various countries).
- You may be overrun by a **flood of documents** from **numerous sources**, signed in the most diverse ways.

### OUR SOLUTION

- We tackle the problem at its roots: **Always sign with qualified primesign certificates.**
- We provide **simple and reliable qualified signing in accordance with eIDAS.**
- We allow for **easy & immediate signing without prior user registration** in that customers **sign with their existing eID** or in the future with their **EUID wallet** (alternatively customers can sign with a certificate from our shop; quick & easy online registration).
- We guarantee **compliance and verification of signatures over generations** (long-term verifiable signatures, 30+ years, green check mark in Adobe Acrobat).
- We ensure **standardized document** as well as **signature formats & interfaces** and offer **clear SLAs & support.**
- We offer **seals with optional time stamps** to preserve existing documents and ensure long-term authenticity.
- We **take full responsibility and are your sole liable trust partner, legally protecting all your transactions.**
