

## THE PRIMESIGN SIGNATURE SERVER SAAS IN COUNT IT

### INTEGRATION OF PRIMESIGN INTO THE COMPANY'S OWN DOCUMENT MANAGEMENT SYSTEM (DMS)

## SUCCESS STORY

As a classic OEM partner, COUNT IT sells all primesign solutions as a product component of its own portfolio. The primesign cloud solution for the digital signature was fully integrated in the ECM system of the fire prevention agency for Upper Austria, BVS, and in the workflow of the company's ERP system of the Chamber of Labor Upper Austria.

The client can check the validity of the signature and thus rely on a qualified signed offer.

## OUR SOLUTION

Integration of primesign in

-  eCOUNT DMS  
(Cloud ECM solution for SME market)
-  eCOUNT TAX  
(Cloud ECM solution with focus on tax offices)
-  d.velop documents Cloud
-  d.velop documents on-premise  
(formerly d.3ecm)

In addition, primesign can also be integrated into individual solutions

COUNT IT is one of the leading partners for inspiring solutions. Regardless of the industry or company size, companies will find the ideal companion here in the areas of information technology, payroll accounting and tax advice.

The offers include agile individual software solutions, ERP and ECM business solutions, IT & cloud services, smart tax advice, all-round accounting services, advisory services and comprehensive support in the area of human resources.

*"With the integration of primeSIGN in our DMS, we can offer our customers a crucial additional feature so that they can concentrate even more on their core business in their daily work and are not hindered by their own processes."*
